Instructor Workflows

The Instructor is the content creator and facilitator. Their workflows focus on course building, delivering knowledge, creating assessments, and grading.

1. Course Builder & Content Creation

Goal: Create engaging educational content.
Note: Courses are created and assigned to you by the Institute Admin.
W1.1 Course Structure Design:
Access "My Courses" -> "Manage Content".
Create Modules (Chapters) to organize topics.
Create Lessons (Sub-sections) within Modules.
W1.2 Content Upload:
Video Lessons: Upload video files or embed URLs (YouTube/Vimeo).
Resources: Attach PDFs, Slides, and supplementary files.
CodeLab: specific coding challenges for technical courses.
W1.3 Document Gallery:
Access "Documents Gallery" (Admin/Instructor View).
Upload shared learning materials (Reference Books, Guidelines).
These items are available to all students in the institute.

2. Assessment Management

Goal: Evaluate student understanding.
W2.1 Assessment Creation (Quizzes & Exams):
Access the "Assessments" dashboard from the sidebar.
Click "Create Assessment" and select the Course you want to assign it to.
Select Type:

Regular Quiz: Standard practice or graded quiz.
Pre-Assessment: Baseline check. Must be passed by students to unlock course content.
Post-Assessment: Final outcome check.
Configure settings: Time Limit, Max Attempts, and Passing Percentage (crucial for Pre-Assessments).
Question Bank: Add questions (MCQ, Short Answer).
W2.2 Assignment Management (Projects/Homework):
Create written/project Assignments.
Set Due Dates and Points.
Define simple Rubrics for grading consistency.

3. Classroom Delivery (Live)

Goal: Real-time interaction with students.
W3.1 Scheduling Live Classes:
Schedule a "Live Class" session (Zoom/WebRTC integration).
Set topic, date, time, and duration.
System notifies enrolled students automatically.
W3.2 Conducting Class:
Start the session as Host.
Manage participant interactions.
W3.3 Attendance:
Mark attendance manually or review auto-captured attendance logs.

4. Grading & Feedback

Goal: Assess performance and guide students.
W4.1 Grading Submissions:
Access the "Gradebook" from the sidebar (under Courses).
Master Gradebook View: You will see an Accordion list of all your courses.
Course Overview: Click on a course to expand it. The default "Overview & Grades" tab displays a comprehensive grid of all students and their results for every assignment and quiz.
Detailed Grading:
Switch to "Assignments", "Quizzes", etc., tabs to see list of assessments.
Click "View Results" on any specific item to see a list of submissions.
Open a submission to grade detailed work, view files, and provide Feedback.

Note: Once submitted, grades are Locked to prevent accidental modification.
W4.2 Quiz Review:
Review auto-graded quiz results.
Manually grade short-answer questions if applicable.
W4.3 Grade Correction (Change Request):
Select a locked submission.
Click "Request Change" to propose a new grade.
Providing a reason for the change (e.g., "Calculation error").
Wait for Institute Admin approval.

5. Student Management & Communication

Goal: Mentor and support enrolled students.
W5.1 Attendance & Re-activation:
Monitor Attendance: View daily attendance logs for students.
Review Applications:
Receive Re-activation Applications from students who have been absent for 4+ days.
Review the provided reason.
Forward to Admin: Add your comment (Recommend/Not Recommend) and forward the request to the Institute Admin for final approval.
W5.2 Student Progress Monitoring:
View list of enrolled students.
Check individual progress (Lessons completed, Quiz scores).
W5.2 Course Communication:
Post "Course Announcements" (e.g., "Assignment deadline extended").
Reply to student queries (via Forums or direct messaging).
